3. WHEAT.

The area sown with wheat for 1934-35, according to returns of wheatgrowers was 4,130,400 acres, including 3,868,900 acres for grain. The first forecast of the Director of Marketing (based on conditions at 10th October, 1934), was that the crop for grain in 1934-35 would be 42,000,000 bushels. On 13th October, 1934, the quantity of wheat grain stored in silos and on railway premises was 13,794,000 bushels. Of this quantity 7,261,000 bushels were on sites in the Metropolitan Area.

December	4.91	11.47	5.36	11.76	5.70	11.81		

* See note below.

The proportion of recorded to total sales has been progressively reduced by reason of the numerous commodities exempted from tax as from 1st September, 1932, 26th October, 1933, and 1st August, 1934. Comparisons between months of the four groups delineated above cannot be made without allowance for this fact.

* State Government banking transactions suspended. Index not ascertainable.
Government transactions.

† Exclusive of certain abnormal

The index may be regarded as an approximate measure of changes in the volume of business transactions settled by cheques provided it is considered in conjunction with changes in price levels. It represents the ratio of each month's clearings to the average for the month concerned during the five years 1926–1930. This average is represented by 100 each month. Seasonal fluctuations have thus been eliminated. Casual fluctuations in monthly index numbers have been smoothed out by taking a three months' moving average, that is, the index shown above for each month is the average of the actual index of that month and the preceding two months. It may be compared vertically or horizontally.

The index is adjusted to eliminate the effects of Treasury Bill and other special transactions on behalf of Governments and the effects of bank amalgamations. No adjustment has been made for normal growth or change of price levels. The amounts of clearings shown are the recorded totals less Treasury Bill transactions only.

The average annual transactions for period 1925-1929 were:—Sales, £55,428,000; and Mortgages, £48,505,000.

NOTE.—Mortgages and liens in some instances secure fluctuating advances, the amount of which is not recorded in the legal instruments. The amounts shown relate substantially to mortgages of fixed amounts for fixed periods, and exclude fluctuating advances (such as overdrafts) secured by mortgage. Mortgages providing collateral security of subsisting mortgages are included.

In the two months ended 30th September, 1934, mortgages, exclusive of those providing collateral security, amounted to £1,968,000, as compared with £1,292,000 in the corresponding months last year.

24. STOCK EXCHANGE INDEX (SYDNEY).

The following index of the values of the principal Company shares on Sydney Stock Exchange embraces the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales.

The prices of individual shares are unweighted, and the group averages are the means of the average monthly prices per £ of paid-up capital. The aggregate index is the average for the whole of the shares included in the groups with the addition of 24 miscellaneous shares. It represents the ratio of the average prices of ordinary shares to their par values.

Par Value of Shares = 100.
